what is WeMake

#makerspace
#fablab

**we experiment and create
to foster change
and empower people**

**technologies
communities
education
opensource**

wemake.cc

#OPENCARE

**Open participatory engagement
in collective awareness for redesign
community-based care services.**

Edgeryders

the University of Bordeaux,

the City of Milan,

WeMake,

SciImpulse Foundation a

Stockholm School of Economics.

**Funded by European Commission under the Horizon 2020
programme - Collective Awareness Platform**

#OPENCARE

- **collect experiences of community-driven care services**
- **validate them through open discussion, both online and offline.**
- **augment them with state-of-the-art maker technology (3D printing, laser cutting, biohacking...)**
- **combine everything we learn into the design and prototype of community driven care services.**

THANK YOU
